DataBagg Quick Start

What is DataBagg?

DataBagg is an online storage service, based on the powerful cloud computing platform. It solves all your needs of managing, optimizing and accessing digital data with the ease of one click. DataBagg lets you bring all your photos, docs, and videos anywhere anytime.

Any file you save to your DataBagg will also automatically save to all your computers, phones, and even the DataBagg website. This means that you can start working on your computer at the office or at park, and finish on your home computer.

Add files to your Sync Folder

The Sync Folder allows you to sync files between multiple computers. Meaning your favorite files and folders can be on all of your devices and desktops. The Sync Folder eliminates the needs for USB Drives and makes emailing files to yourself a thing of the past.

To add files to your Sync Folder you first need to click on the desktop icon to open the Sync Folder. Once the folder is open you can add file into the folder, once the file has finished syncing a green tick will appear to show a successful sync

Adding files to your DataBagg

Starting with DataBagg is super easy! All you need to do is, download our user friendly application on your desktop/laptop or mobile. Once you download our application, you can add folder/s to sync or right click on the folder and choose "Add folder to DataBagg".

DataBagg icon that lets you know how your DataBagg is doing:
Blue/Orange circle and arrows: Files in your DataBagg are currently uploading.
Green circle and check: All the files in your DataBagg are uploaded.

Sharing a Folder

You can Share files/folders/albums/playlist using DataBagg by selecting the 'Sharing' option from My DataBagg folder. Sharing a file is really quick and allows you to share your data with colleagues, family, friends or team members.

To start sharing folders you first need to select the folder you wish to share. Once you have selected the folder you want to share all that remains is to choose who you want to share the folder with.

You can share data by using below options:-
• **Email:-** Send an email to share the folder to your friends, family and team members.
• **Post:-** You can share the folder via Facebook, Twitter and linked.
• **Embed:-** Make a link to any file or folder in your DataBagg. You can then send this link to anyone you'd like to view the file — even if they don't have DataBagg!

Invite Friends to DataBagg

To start inviting your friends to DataBagg click "Bonus Space" tab. You can invite your friends using Facebook, Twitter or Email. However you choose to invite your friends to join you on DataBagg, make sure you tell them how awesome we are!

Inviting your friends to join DataBagg means you earn FREE space. On every successful invitation you will be rewarded with 1GB of storage space. To earn your free space your friend needs to join DataBagg.

You can also keep check on the status of you referrals by using the "Bonus Space" tab available in 'My Settings' menu.

What do I do now?

Try dragging some photos or docs into your DataBagg. Then visit the DataBagg website at https://www.Databagg.com. When you log in, your files will be waiting for you!
